## BIN-SENSE MONITORING CABLES

Monitoring your grain so you don't have to.

### HOW DO THEY WORK?

Bin-Sense Monitoring Cables sense the temperature and/or moisture of the stored grain and report it via the Bin-Sense mobile app or web dashboard.

## BIN-SENSE FAN CONTROLLER

Control your fans at the touch of a button... from your couch!

### HOW DOES IT WORK?

Bin-Sense Fan Controller connects your aeration fans through your Bin-Sense Live system, allowing fans to be controlled remotely from your mobile or desktop device.
