\$ 999.00

INTRA-PROBE5

Bin Sense Grain Bag Monitoring - Stainless Steel Sensing Probe 5' - 1 Temp. Sensor

\$ 299.00

INTRA-PROBE10

Bin Sense Grain Bag Monitoring - Stainless Steel Sensing Probe 10' - 2 Temp. Sensor

\$ 450.00

Full-Bin SUPER SENSOR

*Never climb
a bin again!*

\$749

- No more failed shear pins, plugged augers or grain spills.
- The tilt switch at the top turns on the light at the bottom when the bin is full.
- Magnetic light is extra bright so it is easy to see.
- Optional sound alarm is also available.
- Easy to top up your bin with this sensor.
- Fits any size auger, conveyor or leg system.
- Also used for filling dairy silos.
- Effective with all grains and fertilizers.

*** 2 YEAR WARRANTY ***

CK7-36E	36" FLIGHTING EXTENSION	10	
CK7-54E	54" FLIGHTING EXTENSION	14	

CIRCLE KING bin unloading equipment is an "easy to use and efficient" system for new and existing bins. It is easily installed and can be used on concrete and wooden floors. Each farming operation requires One System complete (based upon the smallest diameter bin), plus one suitably sized Unload Tube for each additional bin along with suitably selected Flighting Extensions.

Powerheads are portable to bins of every diameter. Only one Powerhead is required for each farming operation. Powerhead flightings are portable between bins of similar diameters. Flighting Extensions make a short Flighting serve a larger diameter bin. Bin Sweeps are portable between bins of similar diameter. Call for help in sizing Circle King Equipment.
